

Illustration of VPK Readiness Rate Flaws

Provider 1 has 10 students and scores a readiness rate of 220. The provider is NOT considered a Low Performing Provider

100 + 60 + 60 = 220

Students	100% (10 Students) Were Ready for Kindergarten as measured by ECHOS	60% (6 Students) Were Ready for Kindergarten as measured by Letter Naming	60% (6 Students) Were Ready for Kindergarten as measured by Initial Sounds
Student 1	X	X	
Student 2	X	X	
Student 3	X	X	
Student 4	X	X	
Student 5	X	X	X
Student 6	X	X	X
Student 7	X		X
Student 8	X		X
Student 9	X		X
Student 10	X		X

Children must be assessed as ready to learn in all three measurements to be classified as entering kindergarten ready to learn. In the example above 20% of the children entered kindergarten fully ready to learn.

Provider 2 has 10 students and scores a readiness rate of 190. The provider IS considered a low performing provider.

70 + 60 + 60 = 190

Students	70% (7 Students) Were Ready for Kindergarten as measured by ECHOS	60% (6 Students) Were Ready for Kindergarten as measured by Letter Naming	60% (6 Students) Were Ready for Kindergarten as measured by Initial Sounds
Student 1	X	X	X
Student 2	X	X	X
Student 3	X	X	X
Student 4	X	X	X
Student 5	X	X	X
Student 6	X	X	X
Student 7	X		
Student 8			
Student 9			
Student 10			

Children must be assessed as ready to learn in all three measurements to be classified as entering kindergarten ready to learn. In the example above 60% of the children entered kindergarten fully ready to learn.
